Positioning

The professional search engine positioning service

A website alone is not enough, it's the ranking that counts

The phenomenal sales and marketing power of the internet means that an online presence is essential for every modern business. But having a website is not enough if nobody can find you.

Positioning provides a range of services designed to improve your search engine ranking and therefore the volume of traffic driven to your website.

Features include:

- analysis of your current website ranking on world

- wide major search engines;

- preparation of 10 optimised key-phrases, web-site title and description to be included in your website;

- submission of your website to world-wide major search engines and directories;

- monthly monitoring of your search engine ranking in top 40 search engines worldwide;

- monthly re-submission of your website to maintain your ranking;

- detailed submission and ranking reports can be viewed via our password protected online control panel.

The key to high ranking on top world-wide search engines

Auto Submission - €480 per language/web-site/annum

First of all, we analyse your existing website from the perspective of a search engine. Next we prepare 10 optimised keyphrases, web-site title and description and submit your website to world-wide major search engines and directories.

We further monitor your web-

site's ranking over a twelve-month period during which we re-submit your website each month in order to maintain your ranking.

Our password protected control panel list all tasks done and provides you with detailed submission and ranking reports of how your website performs in the top search engines.

Manual Submission - €40 per hour (minimum 5 hours)

AlgarveWeb also undertakes Manual Submission to major search engines worldwide according to customer's specific requirements. In addition, Paid Inclusion (sign-up fees apply) ensures that your web site is available to millions of internet users within a matter of just a few business days.
